

INCIDENT MANAGEMENT SITUATION REPORT  
FRIDAY, SEPTEMBER 8, 2000 - 0530 MDT  
NATIONAL PREPAREDNESS LEVEL IV

CURRENT SITUATION:

Seven new large fires were reported, six in the Southern Area and one in the Eastern Great Basin Area. Crews reached containment goals on four fires, three in the Southern Area and one in the Eastern Great Basin Area. Initial attack activity was light throughout the United States, except in the Southern Area where it was moderate. Increased winds in Montana and Wyoming may challenge firelines on the large fires in those states. Diminished fire activity is expected in Texas and the Gulf Coast states as scattered thunderstorms bring some moisture to those areas. Very high to extreme fire indices were reported in Washington, Oregon, California, Idaho, Montana, Utah, Wyoming, Nevada, Arizona, Colorado, Kansas, Arkansas, Mississippi, Oklahoma and Texas.

SOUTHERN AREA LARGE FIRES:

CHICKEN, Texas State Forest Service. This fire is located 20 miles east of Nacogdoches, TX. A Type II Incident Management Team (Sisk) is assigned. High temperatures, low humidity, constant wind and intense fire behavior are resulting in the fire escaping from containment lines each afternoon.

MOORE BRANCH, Texas State Forest Service. This fire is burning in a pine plantation 30 miles north of Beaumont, TX. A Type II Incident Management Team (Koehler) is assigned. No new information was received.

SOBOL, Oklahoma Division of Forestry. This human caused fire is 25 miles east of Antlers, OK. Primary fuels are loblolly pine plantations. Intense fire behavior includes running crown fire. Cooperative effort has been established between Oklahoma Forestry Services and Weyerhaeuser Timber Company for fire suppression.

WILCOX, Miami Agency, BIA. This human caused fire is located 10 miles east of Miami, OK. The fire is showing extreme fire behavior with active crowning and rapid rates of spread. High temperatures, low humidity and heavy fuel loadings are causing control problems.

CRAIG, Oklahoma Division of Forestry. This human caused fire is located seven miles east of Broken Bow, OK. This actively crowning and running fire is burning in loblolly pine plantation. Commercial timber is threatened. Cooperative effort has been established between Oklahoma Forestry Services and Weyerhaeuser Timber Company for fire suppression.

BIG HEAD CREEK, Texas State Forest Service. This fire is located near Kilgore, TX. Observed fire behavior includes spotting and crowning.

WILDWOOD, Texas State Forest Service. This fire is burning near Wildwood, TX.

MAYHAW, Texas State Forest Service. The fire is burning in pine

plantation in Hardin County. No structures are threatened.

SNAKE EYE COMPLEX, National Forests in Mississippi. This complex of fires is near Potts Camp, MS. The fires are still flaring up during the day, but staying within containment lines. Crews continue to patrol and mopup.

DEEP CREEK, Texas State Forest Service. This is fire burning near San Saba, TX. The fire is burning in heavy juniper.

HORIZON, Texas State Forest Service. The fire is burning 40 miles northwest of San Antonio, TX. The weather continues to be hot and dry.

BUSH, Texas State Forest Service. This fire is burning in a pine plantation in Tyler County. Spotting and high temperatures are making control difficult.

RANGER HILLS, Texas State Forest Service. This fire is burning in heavy brush and cedar 50 miles east of Abilene, TX. Record temperatures and heavy spotting are making control difficult.

E WHITES 2, Anahuac National Wildlife Refuge. This fire is burning in a marsh area 40 miles from Houston, TX. Mopup operations are continuing. Higher relative humidities have assisted firefighters in suppression efforts. No new information was received.

NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Edrington) is assigned to manage the large fires in the Hamilton area. An Area Command Team (Mann) is assigned to manage the large fires in southwest Montana. An Area Command Team (Meuchel) is assigned to manage the large fires in central Montana. An Area Command Team (Gale) is assigned to manage the large fires in northwest Montana.

Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

VALLEY COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Stutler) is assigned. The Army's 3rd Battalion 327th Infantry from Ft. Campbell, KY, commanded by LTC Lehr, is assigned. These fires are seven miles south of Darby, MT. The complex consists of the Bear, Taylor, Taylor Spot, Hilltop, Razor, Fat and Mink fires. Minimal spread has been observed on all fires. Four servicemen from the 101st Airborne Division received the Army Achievement Medal for their quick response yesterday in a helicopter medevac situation on the adjacent Mussigbrod Complex, saving the life of a person involved in a motor vehicle accident.

SKALKAHO COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Rutherford) is assigned. This group of fires is ten miles southeast of Hamilton, MT. Included in the complex are the Bear and Coyote fire. Higher humidities and cooler temperatures continue to help reduce fire activity.

BLODGETT TRAILHEAD, Bitterroot National Forest. A Type I Incident Management Team (Rutherford) is assigned. This fire is three miles northwest of Hamilton, MT. WILDERNESS COMPLEX, Bitterroot National Forest. A Type II Incident Management Team (Cook) is assigned. The complex consists of 14 fires in the Selway-Bitterroot and Frank Church River of No Return Wildernesses, 40 miles southwest of Hamilton, MT. Large fires in the complex include the Hamilton, Lonely, Fitz, Thirty, Echo and Throng fires. Fire activity has been greatest at the 4000 to 5000 foot elevations, with less activity at higher elevations. Outfitters and guides have been allowed to set up spike camps within the wilderness. Acreage decrease is due to better mapping.

ALDER CREEK, Lolo National Forest. A Type II Incident Management Team (Davidson) is assigned. This fire is 31 miles southeast of Missoula, MT. Two new hot spots have been located in one division and crews are suppressing them. Patrol and mopup activities are ongoing.

THOMPSON FLAT COMPLEX, Lolo National Forest. A Type I Incident Management Team (Carvalho) is assigned. This is a complex of six fires in the vicinity of Superior, MT. Crews are continuing fireline construction and mopup on the Landowner fire. Rehabilitation of suppression-related impacts is underway.

UPPER NINEMILE COMPLEX, Lolo National Forest. A Type I Incident Management Team (Bateman) is assigned. The Army's 20th Engineers Battalion from Ft. Hood, Texas, commanded by LTC Shumway, is assigned. These fires are burning 25 miles northwest of Missoula, MT. Activity has been focused on rehabilitation, with mopup operations continuing as needed.

CLEAR CREEK DIVIDE COMPLEX, Flathead Agency, BIA. A Type I Incident Management Team (Orich) is assigned. This complex, 60 miles northwest of Missoula, consists of the Clear Creek, Vanderburg, Siegel, Seepay and Magpie Creek fires. Crews are constructing and maintaining firelines and extinguishing hot spots within the unburned areas of the fire. All fireline built by dozers is holding.

MONTURE/SPREAD RIDGE, Lolo National Forest. A Type II Incident Management Team (Hollenshead) is assigned. The fires are 15 miles east of Seeley Lake, MT. Helicopters continue to make water drops on hot spots. Suppression and rehabilitation activities are ongoing.

MIDDLE FORK COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Hart) is assigned. The complex consists of the Falls Creek, Cougar Creek, Coyote Springs, Medicine Lake, Skalkaho Pass, Lick Creek and Cooper Creek fires, 30 miles southwest of Philipsburg, MT. Scouting and planning is underway for additional divisions on the west side of the Coyote fire in coordination with the Skalkaho Complex along shared boundaries.

MAUDLOW/TOSTON, Central Land Office, Montana Department of Natural Resources and Conservation. A Type II Incident Management Team (Corbin) is assigned. These fires are 25 miles northeast of Belgrade, MT. The fires are low intensity. Crews and engines are mopping up hot spots with assistance from helicopter bucket drops. Rehabilitation of firelines on U.S. Forest Service land is underway.

MUSSIGBROD COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Bennett) is assigned. These fires are 12 miles northwest of Wisdom, MT. The complex includes the Mussigbrod and Maynard fires. Winds and drier weather have increased the fire activity in a few areas of the fire, but overall activity remains low. Fireline construction has been completed from the southwest side of the perimeter 20 miles east toward Plimpton Creek, then north nine miles to the wilderness boundary. Mopup is continuing in all divisions.

KOOTENAI COMPLEX, Kootenai National Forest. A Type II Incident Management Team (Novotny) is assigned. The Army's 1st Battalion 321st Artillery from Ft. Bragg, NC, commanded by LTC Mathis, is assigned. These fires are 20 miles northwest of Libby, MT. The Troy South Complex has been included within this complex. Crews have been flown into the North and West Grizzly fires. Action is now being taken on all the fires in the complex. Mopup and patrol activity continues.

TROY SOUTH, Kootenai National Forest. A Type II Incident Management Team (Gauger) is assigned. This complex of fires is near Troy, MT. This complex has become part of the Kootenai Complex and will no longer appear separately on this report. Acres and resource counts are included in the totals for the Kootenai Complex.

CHIPMUNK, Flathead National Forest. The fire is burning in spruce, subalpine fir and brush 45 miles southeast of Kalispell, MT. The fire area has received showers. Fire behavior has been minimal. This will be the last report unless significant activity occurs.

SUGARLOAF, Gallatin National Forest. The fire is 13 miles northeast of Wilsall, MT. The fire is being monitored by aerial reconnaissance. This will be the last report unless significant activity occurs.

GREEN MOUNTAIN, Kootenai National Forest. These fires are seven miles northwest of Trout Creek, MT. The complex includes the Green Mountain, McNeeley, Basin Creek and Engle fires. This will be the last report until significant activity occurs.

SPRUCE COMPLEX, Yellowstone National Park. This is a complex of 11 fires in Yellowstone National Park. The complex consists of the Plateau, Moose, Unlucky, Boundary and several smaller fires. Minimal fire behavior has been noted due to precipitation, high humidities and cool temperatures. Structure protection measures are in place at backcountry cabins and at the east and south entrances to the park. This will be the last report unless significant activity occurs.

JUDITH COMPLEX, Lewis and Clark National Forest. This complex consists of the Studhorse, Lost Fork and High Springs fires, which are 25 miles southwest of Stanford, MT. No significant activity observed. This will be the last report unless significant activity occurs.

SHARON, Glacier National Park. This fire is near North Fork in Glacier National Park, MT. Continued cool, wet weather is keeping fire activity low. The National Park Service is monitoring the fire with daily aerial observation flights. This will be the last report unless significant activity occurs.

HELEN CREEK, Flathead National Forest. This fire is 22 miles south of Spotted Bear, MT. The fire is being monitored by U.S. Forest Service personnel. This will be the last report until significant activity occurs.

MINARET PEAK, Flathead National Forest. The fire is near the Spotted Bear Ranger Station in the Bob Marshall Wilderness. U.S. Forest Service personnel are monitoring the fire's activity. Fire activity is low due to the weather. This will be the last report until significant activity occurs.

PARKE PEAK, Glacier National Park. The fire has been burning since 7/23 in the northwest corner of the park. Fire activity is low with no increase in perimeter. National Park Service personnel are monitoring the fire. This will be the last report unless significant activity occurs.

CRIMSON PEAK, Flathead National Forest. This fire is located in the Bob Marshall Wilderness. The fire is being monitored by U.S. Forest Service personnel. Fire activity continues to be low due to the weather. This will be the last report until significant activity occurs.

EASTERN GREAT BASIN AREA LARGE FIRES:

CLEAR CREEK COMPLEX, Salmon-Challis National Forest. A Type I Incident Management Team (Hefner) is assigned. This complex consists of the Clear Creek, Marlin Springs, Full Circle and Sisters fires. The 3rd Battalion, 2nd Marines from Camp Lejeune, North Carolina, commanded by LTC Smith, is committed. Some tree torching is occurring as weather turns warmer and drier. Significant mopup efforts are being accomplished. Rehabilitation work is increasing as resources become available.

BURGDORF JUNCTION, Payette National Forest. A Type II Incident Management Team (Suwyn) is assigned. The fire is 23 miles north of McCall, ID. Crews have made steady progress on fireline construction and suppression of hot spots.

DRY FORK, Wasatch-Cache National Forest. A Type II Incident Management Team (Saleen) is assigned. The fire is located northeast of Kamas, UT. This fire is in a remote location and in rugged terrain. Spotting up to one half mile has been observed.

TETON COMPLEX, Grand Teton National Park, NPS. This complex is north of Jackson, WY. The complex consists of the Wilcox, Moran, Hechtman, Glade and Enos fires. Crews are patrolling and mopping up on the Moran, Wilcox and Enos fires.

FONTENELLE, Bridger-Teton National Forest. This fire is 20 miles north of Kemmerer, WY. Crews are holding the fire within the established perimeter.

MORSE, Salmon-Challis National Forest. The fire is burning in grass, sagebrush and douglas fir five miles east of May, ID. The fire is no longer staffed and is being monitored by U.S. Forest Service personnel. This will be the last report unless significant activity occurs.

SCF WILDERNESS, Salmon-Challis National Forest. A Type II Incident Management Team (Adams) is assigned. Eleven wildland fires are currently burning within the Salmon Challis Wilderness Complex: Little Pistol, Indian Creek, Filly, Butts, Papoose, Parker, Packer Meadow, Shell Rock, Wilson Creek, Jackass and Jack Creek. Observed fire behavior is low. Another burned structure has been discovered at Trapper Creek. Aerial reconnaissance is being performed daily.

FLOSSIE COMPLEX, Payette National Forest. These fires are 50 miles northeast of McCall, ID. There are still a few smokes showing.

DIAMOND COMPLEX, Payette National Forest. This complex of fires, 42 miles northeast of McCall, ID, consists of the Lookout, Point, North Shellrock and South Shellrock fires. Very few smokes are visible.

ROCKY MOUNTAIN AREA LARGE FIRES:

DEADMAN COMPLEX, Nebraska National Forest. A Type II Incident Management Team Hartman is assigned. This complex consists of the Deadman, Sawlog and Warbonnet fires. Some torching and intermediate ground runs have been observed. Crews are making good progress with fireline construction and mopup operations.

JASPER, Black Hills National Forest. This fire is 15 miles east of Newcastle, WY. Winds have increased in the fire area. Crews are completing mopup operations and conducting inventory for rehabilitation planning.

OUTLOOK:

\*\*\* A FIRE WEATHER WATCH IS POSTED IN SOUTH CENTRAL, EASTERN AND SOUTHWEST MONTANA, NORTHWEST SOUTH DAKOTA AND WYOMING'S BIG HORN MOUNTAINS FOR GUSTY WINDS AND DRY THUNDERSTORMS \*\*\*

\*\*\* A FIRE WEATHER WATCH IS POSTED IN SOUTHWEST THROUGH NORTH CENTRAL MONTANA FOR STRONG WINDS \*\*\*

High pressure remains over south Texas and the Gulf Coast states, for a warm and moist southerly flow. Upper level low pressure over the Gulf of Mexico will bring scattered thunderstorms during the afternoon and evening to the coastal regions. Highs will be in the 80's and 90's with temperatures up to 102 in the Rio Grande River area. Minimum relative humidities will be 25 to 35 percent inland and 50 to 60 percent along the coast. Winds will be east at 5 to 15 mph.

In the west, another series of troughs will move south along the west coast, while a ridge builds into the northern Rocky Mountains. As a result, it will be breezy with a chance of showers across Washington, Oregon and northern Idaho. Further south, monsoon moisture will bring thunderstorms to parts of the southwest.

High temperatures in the west will be in the 60's and 70's in the northern Rockies, in the 70's and 80's at lower elevations and in the 90's to 100 in desert areas. Minimum humidities will range from the mid teens to the mid 30's, with some single digit readings in the warmest southern deserts. Winds will be west to southwest at 10 to 15 mph.
